PROFESSIONAL SUMMARY

Hands-on experience building full-stack projects, from a multi-tenant business intelligence platform with a real machine learning pipeline to a native Android application and a UI/UX case study, has shaped a habit of approaching problems with curiosity and persistence, communicating openly and supporting teammates to reach shared goals. This foundation is further deepened through recent coursework in agentic AI and exploratory data analysis for machine learning, alongside a UI/UX design foundation and a global perspective gained through an academic exchange in China, reflecting the adaptability, collaboration, and continuous learning most employers look for in a well-rounded developer.

EXPERIENCE

Samsung Innovation Campus

Jakarta, Indonesia

Student Participant, AI & IoT Track

Aug 2026 – Present

- Developed a machine learning model to predict equipment maintenance needs (88% accuracy) and presented the capstone project to industry mentors, placing top 10 of 200+ teams

PROJECTS

AIBISPRO, AI-Powered Business Intelligence Platform for Retail & F&B

Jun 2026 – Jul 2026

Full-Stack Developer | github.com/aLn35/AIBISPRO-FIX

- A platform that helps retail and F&B businesses monitor sales performance, forecast demand, and manage restocking and promotion approvals through role-based dashboards and an AI assistant, built with React, NestJS, PostgreSQL, and a Python ML microservice

KRS-Mama, Palm Oil Transaction System (Android Application)

Sep 2025 – Dec 2025

Android Developer, Solo Project | github.com/aLn35/AN-OIL-PALM-RAM-APPLICATION

- A mobile app that helps small palm oil collection centers digitize daily trading, automatically calculating payments and debts and generating invoices to replace manual, error-prone bookkeeping, built with Java and Firebase

Recreo, Waste Recycling Education Platform

Jun 2025 – Jul 2025

UI/UX Designer | figma.com/design/yHzkQ8VCN6kDeB5v9XwteP/Recreo

- A platform that teaches children and communities how to turn household waste into useful items, featuring step-by-step upcycling guides, a community gallery, and an educational quiz game, designed end-to-end in Figma

LEADERSHIP & ACTIVITIES

INNOVERSE (Innovative Research Week)

MTDD, Multimedia, Design, and Documentation

Dec 2024 – May 2025

- One of the members responsible for creating graphic design assets, producing promotional video content, and managing official photography and documentation throughout the event

CERTIFICATIONS

- Agentic AI and AI Agents: A Primer for Leaders, Vanderbilt University (Coursera), 2026; Exploratory Data Analysis for Machine Learning, IBM (Coursera), 2026
- Business Implications of AI: A Nano-course, 28DIGITAL (Coursera), 2026; Introduction to Computers, Microsoft (Coursera), 2026

EDUCATION

President University

Jawa Barat, Indonesia

Bachelor of Science in Computer Science

Sep 2024 – Dec 2027 (Expected)

- Relevant Coursework: Data Structures & Algorithms, Machine Learning, Database Systems, Software Engineering
- Honors: Jababeka Scholarship; International Student Mobility Partial Scholarship Program

Fuzhou University International Studies and Trade

Fuzhou, China

Student Exchange Program, Faculty of Economics and Management

Mar 2026 – May 2026

- Completed coursework on GoTo Group's ESG performance and digital economy growth strategy; collaborated on a cross-cultural project on Li-Ning's brand strategy across UK, France, and Germany

SKILLS & INTERESTS

Technical: JavaScript/TypeScript, Python, Java, PHP, HTML, SQL, React, Node.js, NestJS, PostgreSQL, Firebase, Git

Languages: Indonesian (Native), English (Fluent)
